India 1st Electronic COVID-19 Test Kit - COVIHOME
 Prof Shiv Govind Singh

KID: 20210307

IIT Hyderabad's Prof Shiv Govind Singh developed India's First Bio-electronic COVID-19 Rapid Electronic Test Kit, "Covi-Home". Validated by CCMB Hyderabad (ICMR partner institute), Covi-Home is ready for Technology Transfer.

Highlights:

- Validation Report: Specificity: 98.2% Sensitivity: 91.4% Efficiency: 94.2%.
- Works with Oral/ Nasopharyngeal Swabs, Testing Volume: < 10 µL.
- Oligo-based testing (Equivalent to RT-PCR testing).
- Smartphone-based Home-testing.
- Test results within 30 min.
- Low cost ~Rs. 300/Test.
- No RNA-extraction is required.
- No RT-PCR is required for load amplification and testing.

mPTX for enhanced sperm competence for IVF
 Dr Rajkumara Eerappa

KID: 20210308

IIT Hyderabad along with Kasturba Medical College, Manipal Researchers, designed a molecule 'mPTX' to enhance sperm competence for IVF. mPTX, can increase sperm motility, prolong in-vitro sperm survival and improve sperm fertilization potential compared to the widely used pharmacological agent, pentoxifylline, in IVF technology.

Highlights:

- mPTX enhances motility and longevity of sperm from patients with poor motility.
- Reduces embryotoxicity.
- mPTX treatment prevents premature acrosomal reaction in sperms.
- mPTX treated sperms have better DNA integrity.
- mPTX can be a better drug for enhancing sperm competence for IVF.
