- *Prizes worth INR 7 lakhs, register soon.*

**Hyderabad, February 07, 2023:** Elan & ηVision - the annual techno-cultural fest of IIT Hyderabad, is going to be one of the biggest extravaganzas of the year from 17th February to 19th February 2023. The event is going to be completely filled with several artists, gracing the fest with their enthralling performances. The 14th edition of this 3-day grandeur celebrates the **notion of mystic powers and magic** and promises to leave you enchanted with the **theme, “Secrets of Valenrow”**.

The social cause theme for this year is **‘Ikshana - Save Animals’**. Because of human greed, animals have become a target of abuse. One of the major concerns of today’s modern world, we aim to give the issue a much-needed limelight and attraction. Animals also have the full right to live on earth as much as human beings have. We believe that every creation of mother nature should be treated with love, respect, and compassion.

Elan & ηVision 2023 has an exciting line-up of celebrities. The first in a series of gigs will be performed by Anand Bhaskar Collective, an Indian Indie band also known as “ABC” or “The Collective” on the first day of the fest (17th February). The band is known for their power-packed performances with music featuring an eclectic blend of Indian Classical elements and a dominant Alternative Rock Sound.

Singer/Composer Gajendra Verma is ready to perform and set the stage ablaze with his voice. Of course, the evening wouldn’t be complete without his iconic song “Tera Ghata”. Aashish Solanki, the winner of Comicstaan season 3 is all set to send the audience into fits of laughter with his amazing comedic timing. The last day of the fest (19th February), is going to feature India’s most followed and the first person to play at Tomorrowland, DJ Shaan with energetic and electrifying remixes of the music and give a blast to the EDM Night.

**Lauding the efforts of the fest Elan & ηVision, Prof B S Murty, Director, IITH, said,** “It’s wonderful to see that the annual fest at IITH, Elan & ηVision, has been gaining increasing recognition and participation year after year. The festival, which showcases the talent and creativity of young people from all over India, has become a platform for them to showcase their skills and interact with like-minded individuals. As we gear up for another edition of this fest, I would like to extend my warmest wishes to the dedicated team who work tirelessly to make this event a reality, and provide a memorable experience for all participants while promoting the spirit of creativity, inventing, and innovation.”

**Mr. Swapnish Sahare, Overall Head, Elan & ηVision, said,** “We are thrilled to announce the 14th edition of the largest techno-cultural fest of Telangana. This year’s fest is set to be the biggest and best yet, taking place over three incredible days from February 17th to 19th. Don’t miss this opportunity to be a part of something truly special. Whether you’re interested in technology, culture, music, or entertainment, this fest has it all. Immerse yourself in the best of what Elan & ηVision has to offer and be entertained, inspired, and educated. Register now to secure your spot and mark your calendars to be a part of this memorable celebration. Looking forward to seeing you all at the fest.”
